## "Repeal the Sherman Law," Says the Board of Trade.

V. Allen and Congressman W. J. Bry-an, who spoke on silver, under the

markets of Europe as competitors with second-class governments for their supply of gold.

"We propose to resort to the silver mines for relief. The mines of six States and three territories are closed, and so are Colorado's great industries. The Bimetalic League proposes to pierce the mountain side and let out the silver stream to swell this volume of pienty.

"Gold has been keaving this country because the money power has forced Austria, Hungary, Argentine and other countries to a gold basis, and not because of the Sherman law. The banks in this country have ample resources, but they are unable to get money with which to discharge their obligations.

"I want it distinctly understood that I favor the free and unlimited coinage of silver, and am not in favor of the unconditional repeal of the Sherman act."

Congressman Bryan followed Senator Alien and said:

"The present ratio is equable, and a change would bring more harm than good. The Sherman law is wrong in principle, in that it treats money as merchandise rather than as money, but it is better than nothing, in that it supplies more currency for the needs of the increasing population, and sustains the buillion value of silver; thus making a return to bimetallism easier than it would be with the present act, repealed. We must stand by the present law until something better is proposed."

OMAHA BUSINESS MEN SPEAK.

OMAHA BUSINESS MEN SPEAK. OMAHA, Neb., July 28.—At a join meeting of the Omaha Board of Trad and Commercial Club yesterday, resolu meeting of the Omaha Board of Trade and Commercial Club yesterday, resolutions were adopted, calling for the repeal of the Bherman law, and stating that "any future legislation in the interest of silver should be upon a ratio which will make the silver dollar of the same intrinsic value as the gold dollar, and that such legislation should also maintain all of our existing currency upon the gold standard of value, without which no improvement is possible in the existing commercial industrial situation."

to go to the meeting and break it up at any cost.

This, at least, is what the sliver men say, and they add that the same person recently made a threat that if any organisation of the friends of bimetallism was attempted he would see that any coslition between the high tariff men and the sliverites was prevented.

The delegates appointed to attend the Convention of the League were Richard Lacey, John G. Boyd, Hugh J. Flich, Henry Nichols, Amasa Thornton, Henry B. Clifford, Harvey A. Spencer, Adolph Luhra, John N. Drake, A. A. Hill, Harding Weston, D. B. Harris, Alexander C. Lassen, James W. Murphy and George O. Jones.

ing Weston, D. B. Harris, Alexander C. Lassen, James W. Murphy and George O. Jones.

According to Henry Nichols, one of the delegates, the policy of the League will be to delay legislation on the silver question by Congress as long as possible, in order to bring pressure to bear upon Western and Southern Congressmen, who, he says, have been corrupted by Federal patronage.

"There is not a ghost of a chance," he says, "that the Sherman law will be repealed at the special session of Congress to be held next month. No action can possibly be taken in the matter before Jan. 1. We have arranged all that, and I know what I am talking about.

"The extra session will accomplish nothing, and the whole question is bound to go over until the regular session of Congress. Lots of things may happen before the end of the year, and I can state with certainty that there will be a very great change of feeling in Congress on the subject of silver legislation by that time."

Mr. Nichols was asked how it was that neither Senator Jones nor Senator Stewart had attended the meeting at the Fifth Avenue Hotel last might. He said it was true that they had been invited, but that for reasons of their own they had declined at the last moment.

The meeting was a purely local one, he said, and they did not probably wish to be mixed up in any matters not directly connected with their duties as United States Senators. He said, however, that both Senators were with them heart and soul, and that it was the intention to make one of the bitterest fights ever witnessed in Congress against the repeal of the Sherman law.
